

## Skills

### Languages:

JavaScript,  
Ruby,  
HTML5,  
CSS

### Frameworks:

Node.js,  
ExpressJS,  
Angular, Rails

### DatabaseTools:

SQL,  
PostgreSQL,  
ActiveRecord

### TestingFrameworks:

Mocha

### Other:

Git  
GitHub,  
Heroku,  
jQuery,  
AJAX,  
JSON,  
Bootstrap,  
Handlebars,  
AndroidSDK  
Powerpoint

## Experience

### Student | General Assembly Web Development Immersive | April 2015 - July 2015

General Assembly WDI is a 12 week full time full stack web development course. The dense curriculum results in 12 hour days of coding in various languages, either alone, in a group, or pair programming. The course curriculum includes JavaScript, Node.js, Express, Ruby on Rails, and Angular.

### Project | Massachusetts Pet Fox Legalization

An online petition where users can register their contact information towards changing state law regarding fox ownership. Ruby on Rails, Ajax, ActiveRecord, Java Script, Html, CSS.

### Project | Play4Free

Community driven online list of free games from across the net where registered users can add to the database. ActiveRecord, Ruby on Rails, JavaScript, HTML, CSS, Ajax.

### Group Project | Nozama

Mock shopping site created by four people as a way for users to purchase organic products. My focus was creating and implementing a user contributed data base for inventory items using NodeJS, Mongoose, Express and Jade Template.

## Other Education

### Ramp Up Program, Boston, MA | 2014

Created both individual and collaborative projects using Ruby on Rails.

### Monroe Community College, Rochester, NY | 2008 - 2012

#### Associates of Science| Computer Systems Technologies

3.5 GPA, 2009-2012 Dean's List, Cisco Academy, Volunteer Worker for "Be The Match Bone Marrow Drive" 2009, 2011.

### Finger Lakes Community College Online

presently completing **AS in Computer Science**.

## Interests

Gaming | Cinema | Anime
